Captive Resources

Chairman and CEO: George Rusu

201 E. Commerce Drive, Schaumburg, IL - 60173

26

For over thirty years, Captive Resources has helped create more than 30 group captives that serve more than 3,600 businesses and organizations located across the United States. Today, Captive Resources proudly advises many of the largest member-owned group captive insurance companies in the world. The company oversees combined premiums of over \$2.0 billion and assets of approximately \$5.0 billion. Captive Resources' full array of services includes: proven pricing practices that offer an unbiased formula to calculate premiums based on a member's actual loss history rather than aggregated averages and trends in the insurance market, risk management services that better control risk and help prevent losses with a formalized risk-assessment methodology, in-house safety professionals to help coordinate all risk control services, claims services managers that provide efficient and effective claims advocacy through a formalized system, flag complex and difficult claims, and keep members apprised of their own loss experience, as well as that of their captive, investment tools that maximize members' assets through the Captive Resources-developed Captive Investors Fund, an offshore mutual fund, which was created in 1994 to meet the specific investment and credit needs of the group captives that Captive Resources serves.
